

## **Independence Day**

July 4 is the one day of the year when everyone becomes a patriot.

This is an opportunity to participate in numerous civic events and have your own as well. Opportunities that may not exist for the other patriotic holidays are often abundant on July 4. Take advantage of the events of that day to establish relationships with civic leaders, other fraternal and civic groups, local retailers and other groups and individuals who can be encouraged to respond to your Post's patriotic events on other days. July 4 is a time to "Show Your Colors" and celebrates all that is good and true about our great nation.

As individuals who have placed their lives on the line for this country, this is THE DAY to celebrate what we have paid for.
